ADMIN OPERATIONS MANUAL

Order Logistics & Tracking Guide

How to fulfill customer orders, assign tracking codes from your hand or via NimbusPost, update progress status, and broadcast live notes to customers.

1. The Dual-Fulfillment System Overview

Your store has been engineered with a **fail-safe dual logistics architecture**. You are never locked into any single courier platform. You can fulfill orders using either of the two operational modes:

MODE 1: AUTOMATED COURIER

NimbusPost Automated Booking

Best for standard courier shipping via Delhivery, Blue Dart, DTDC, and Shadowfax. Automatically calculates rates, reserves waybills, generates barcode labels, and streams live GPS tracking.

- ✓ 1-Click automatic AWB generation
- ✓ Printable carrier barcode labels
- ✓ Real-time automated scan sync

MODE 2: 100% MANUAL CONTROL

Manual Dispatch from Admin's Hand

Use whenever NimbusPost is offline, or when shipping via **India Post Speed Post, Farm Direct Vehicle, Local Tempo, Hand Delivery, or private transport**.

- ✓ Enter any custom tracking code from your hand
- ✓ Post personal messages directly to the customer
- ✓ Update location and progress status anytime

2. Key Workflow Comparison

FEATURE	NIMBUSPOST AUTOMATED MODE	MANUAL DISPATCH MODE (ADMIN'S HAND)
Booking Trigger	Click `[ Ship via Nimbus]` button	Click `[Manual Dispatch]` or `[Update Note]`
AWB / Tracking Code	Generated automatically from courier API	Typed manually by Admin or 1-Click Auto-Generated
Courier Method	Delhivery, Blue Dart, DTDC, Shadowfax	Farm Direct Van, India Post, Local Vehicle, Any Courier
Customer Message	Standard carrier scan message	**Personal custom message written by Admin**

FEATURE	NIMBUSPOST AUTOMATED MODE	MANUAL DISPATCH MODE (ADMIN'S HAND)
Customer /track Page	Shows Nimbus carrier checkpoints	Shows prominent 🌿 **Farm Dispatch Note & Location**

Step-by-Step: Fulfilling Orders from Admin's Hand

Whenever you want to dispatch orders manually or send progress updates directly to customers without relying on courier APIs, follow this 4-step process in the Admin Panel:

1. **Open Order in Admin Panel**
   Go to **Admin > Orders**. Find the order in the list. Click either **[Manual Dispatch]** (for new orders) or **[Update]** (for orders already in transit).

2. **Choose Courier & Tracking Code**
   Select your delivery method (e.g., *Vivaan Farm Direct Express, India Post Speed Post, Local Vehicle / Hand Delivery, Tempo*). Type your own tracking code or click *Auto-Generate*.

3. **Select Progress Status & Current Location**
   Choose from the 6 official statuses: **Processing**, **Farm Packed**, **Shipped**, **In Transit**, **Out for Delivery**, or **Delivered**. Optionally add the location (e.g., *Gujarat Vedic Farm Hub* or *Surat Transit Center*).

4. **Write Personal Customer Message (Or Click Presets)**
   Write a custom note in the message box. This note will **immediately display on the customer's tracking screen**! You can also click the quick presets below the box:

3. Recommended Message Presets for Each Stage

STAGE STATUS	RECOMMENDED ADMIN MESSAGE FOR CUSTOMER
FARM PACKED	*"Your authentic Vedic Bilona Ghee package has been fresh-packed and verified for purity."*

STAGE STATUS	RECOMMENDED ADMIN MESSAGE FOR CUSTOMER
SHIPPED	*“Dispatched in temperature-safe packaging via direct courier express. Heading to your city hub.”*
OUT FOR DELIVERY	*“Your package is out for delivery with executive Ramesh (98765-43210). Please keep your phone handy.”*
DELIVERED	*“Package delivered safely at your doorstep. We hope you cherish this pure Vedic goodness!”*

4. 1-Click WhatsApp Notification

In the Admin Orders table, each order row includes a green **Share** button. When clicked, it automatically copies a formatted WhatsApp update with the customer's name, tracking ID, your custom note, and direct link:

SAMPLE WHATSAPP COPIED MESSAGE

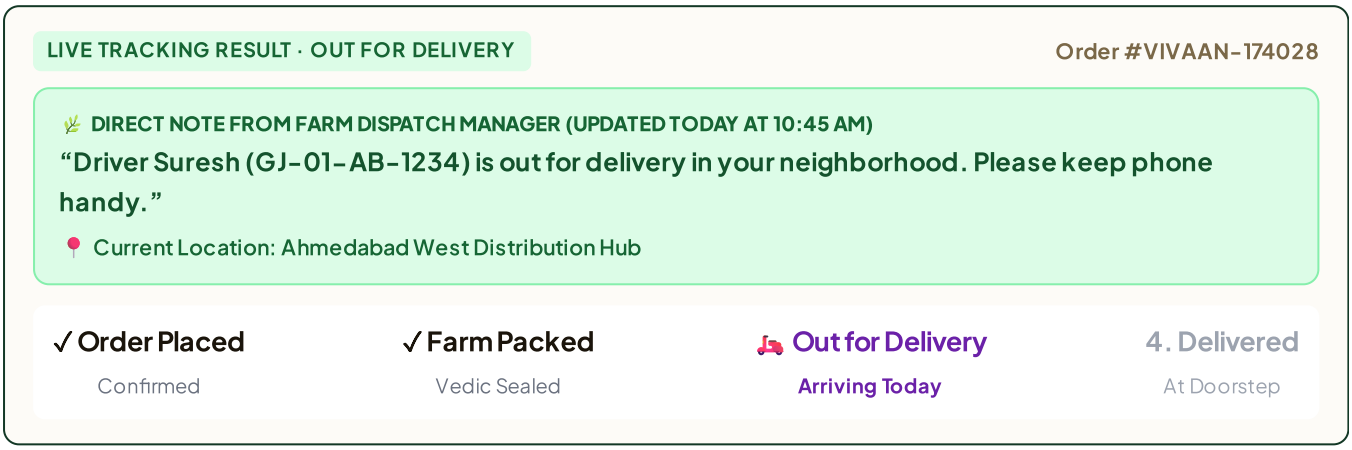

```
Namaste Rakesh Patel! Your Vivaan Farms order #VF-1082 status is: Out for Delivery.
Dispatched via: Vivaan Farm Direct Express (Tracking ID: VF982012IN).

🌿 Farm Dispatch Note: "Your Vedic ghee is out for doorstep delivery with driver Suresh. Expected by 4 PM."

Track live progress anytime at: https://vivaanfarms.com/track?code=VF982012IN
```

How Customers Experience Your Updates

When customers visit **vivaanfarms.com/track** and search by their Order ID, Tracking Code, or Mobile Number, they see your exact updates in real time:

5. Frequently Asked Questions (Admin Cheatsheet)

Q: Can I update the message and status multiple times?

Yes, absolutely. Click **[Update Note]** on any order anytime. Every new status or message you save adds a new checkpoint to the customer's timeline without deleting past updates.

Q: What if NimbusPost is down or wallet balance is zero?

Do not worry. Simply click **[Manual Dispatch]**, choose any carrier (e.g. *Vivaan Farm Direct Express* or *Speed Post*), and dispatch with your own tracking number. The website works 100% independently of NimbusPost.

Q: What if the customer gave the wrong phone number or address?

Click **View Details & Invoice** in the order row to review full recipient details. You can note the updated address in your customer message so the delivery driver sees it.

Q: How do I mark an order as Delivered?

Either click **[Update Note]** and choose *Delivered* (and optionally write "Delivered safely at your doorstep"), OR click the three dots **(...) > Mark Delivered**.

Need Assistance with Orders or Dispatch?

Reach out to our internal developer team or farm logistics coordinator. Your store is completely equipped for seamless operations.
